**At Mt. Hood Community**  
**College, Room 1005**

## From The Vice President — Jim Schoch, KA7AGH

As your current Vice President I would like to wish you all a Happy New Year.

I can imagine that all of you have been keeping your eyes on your antennas during the ice and snow storms. Those of us who have a HF Yagi antenna have had large ice loads on the elements, and the verticals with traps and coils also had those antennas threaten. As I am writing this, at our QTH, we have 8 inches of snow and where our tower is sheltered by the house we have a good percentage of that eight inches on the cross members but above the house the antenna and tower are clear because of blowing winds.

**2016 Highlights:** Last January we had about 71 members and so far this year we have about 90 members showing that our club is growing. We held a very successful technician class using the new to us "Stu Turner" method of teaching. Hoodview had a milestone birthday last year, 40 years old and I hope you all had a good time at the picnic. We also had a successful Field Day and March Of Dimes. Come to the next meeting and help us plan for 2017.

In December Mt Hood Community College was closed due to the weather on our meeting night forcing us to cancel the meeting. The weather for the next few days indicates that we may be able to hold the January meeting. Yeah! Watch the club website or better yet check into the club net on Wednesday on 147.28 at 7:30pm local or 443.475 at 7:45pm local.

*From the Secretary: We did not hold a meeting in December because of the MHCC closure so we do not have December 2016 minutes. We will need to approve the November minutes. We will also need to approve the December and January Treasurer's Report.*
