General Club Meeting
on **January 18 at 7:30 PM**
At **Mt. Hood Community**
College, Room 1001

From The President — Cory Schoch, KA7IUG

I would like to wish all of you a Happy New Year. Our house came through the ice without a problem although Jim was outside on the deck looking up at his antenna quite a few times. It fared well as did our family. The worse thing that happened was colds, flu and cough. But everyone is on the mend.

It is that time again when we start a new year. For the club that means new board members and new goals. I won't call them resolutions because those are usually not carried out to completion. But the board met and we have outlined some goals for the year.

We want to set up a better webpage with more interactive pages available. Our old webpage is over 20 years old and it is dated. We will be asking for ideas and help from our members as to how we can make this more friendly.

We also plan on surveying the club members on what they would like to see for programs this coming year. Surveys will be passed out at the next couple of meetings.

We will continue with our education plan of holding two tech classes per year (spring and fall), one general class (late spring), and an extra class study group in the winter. Our club membership has increased from these classes and it will help the club grow. If you are interested in attending one of the classes, please be sure to talk with me or one of our instructors. We would also like to increase the instructor pool. If you would like to help, please let me know.

We would also like have some fun by hosting a contest weekend training get-together. The plan would be to participate at the 7QP contest on May 5 & 6th at someone's house. We would make it available to drop in to sit in the control chair and operate the contest. Imagine the fun! Hone your skills prior to Field Day! Share some food.

See you all at the club meeting. 73 & 88, Cory
